Receipts.—The actual revenue receipts for the year 1929-30 amounted to Rs. 5,78,525 against Rs. 4,11,938 a decrease of Rs. 1,66,587. This decrease is due to the fall in tonnage of both imports and exports of cargo, owing to trade depression.

Value of trade.—The value of sea borne trade of the Port during the year amounted to Rs. 11,60,61,268 as compared with Rs. 11,86,55,199 a decrease of Rs. 25,94,931 due to fall in imports under coasting trade. There has been an increase of foreign imports and exports and of coasting exports. Statistics obtained from the Customs Department will be found in Appendix VIII of the report. The Port stands second in rank next to Madras.

Working expenses.—The working expenses of the Revenue Fund for the year exclusive of interest on loan and contribution towards capital for re-payment of loan amounted to Rs. 7,03,590 details of which are furnished in Appendix I.

Capital fund.—A detailed account will be found in Appendix V. Expenditure has been incurred for maintenance charges on the plant.

Audit.—The accounts of the Trust for the official year 1929-30 were audited by the District Inspector of Local Fund Accounts, Tanjore, from 14th August 1930 to 28 September 1930 and his report is annexed.

Shipping and trade.—The number of vessels that entered the Port was 898 of a total tonnage of 1,216,008 tons as against 963 vessels of 1,177,256 tons in the previous year, the increase in tonnage being under steamers. The total tonnage of cargo that passed through the Port during the year amounted to 421,162 tons as compared with 467,625 tons in the previous year, a decrease of 46,463 tons.

Loans.—The amount of loan outstanding on the 1st April 1930 was Rs. 21,43,432. Details of the loan position are given below:

State of the Trust's loan at the end of 1929-30.

Scale of rent.—Amendment to the scale of rates and statement of conditions published with Marine Notification No. 96, dated 18th December 1924, regarding schedule of rates of ground rent on lands vested with the Board was sanctioned in

G.O. Mts. No. 57, Finance (Marine) Department, dated 23rd January 1929. Instead of a flat rate for the first week, a lower rate was introduced for the first half of the week and a higher rate for the second half of the week in order to encourage the quicker removal of cargo.

Traffic.—There has been a general depression of trade both under imports and exports. The principal imports were grain, kerosene oil in tins, coal, machinery, motor cars and raw silk. The total tonnage imported during the year was 285,716 tons and the dues collected Rs. 2,07,545 against 324,593 tons and dues Rs. 2,40,994 last year. More coal, machinery and motor cars were imported than in the previous year.

The principal exports were grain, tea, raw cotton, cotton yarn, silk, onions, peacock, dried fish, cattle, sheep, rubber and sugar. The total tonnage exported during the year was 135,414 tons and dues collected Rs. 1,51,457 against 143,230 tons and dues Rs. 1,51,547 last year. More cotton was exported. The fall under the export of cattle was due to a Ceylon Government ordinance which came into force in October 1929.

Engineering and Maintenance.—Two capital works remained in abeyance. Plans and estimates for the construction and upkeep of a complete harbour at the foreshore and at Hare Island were considered and the Local Government decided in Finance (Marine) Department Official Memorandum No 29852-1, dated 28th October 1929 that they were not prepared to make any free grant. The Board decided on 9th November 1929 to ask the Government of India for assistance and the Chairman waited upon His Excellency the Viceroy during his visit to the district. In G.O. Mts. No. 256, Finance (Marine), dated 12th May 1930, orders were communicated that the Government of India were not prepared to consider the question of making a grant for the purpose from Central Revenue. It was then decided by the Board that no scheme for a deep water harbour would be undertaken for the present.

Maintenance work by Harbour Engineer's Department.—The dredging of the boat channel by the hopper bucket dredger "Mam" was started in July 1929 and a length of 7,000 feet of channel was cleared by the end of the financial year. Among the items of maintenance work carried out were the construction of a wharf to the south of the screw pile jetty, the dumping of the spoil from the grab dredger between the Imperial Bank and the screw pile jetty and the enclosing of the reclamation to the east of the Imperial Bank by a revetment wall.

Maintenance work by the Trust.—The foreshore was improved by constructing drains to carry off the rain water from the sheds and the foreshore. A new 2½-ton crane was purchased and put in use on the foreshore. The reclaimed land at the north end of the foreshore was covered with conglomerate stones and gravel to enable motor and cart traffic to come up to the wharves and other minor repairs were carried out to the piers, revetment and landing basin.

General.—By-laws for the prohibition of undesirable persons, etc., from the Port Trust premises were framed by the Board and published by Government in G.O. Mts. No. 568, Finance (Marine), dated 28th October 1929.

Management.—During the year under report the Board consisted of the trustees whose names are given in the beginning of the report. The number of meetings held during the year was 15 (12 ordinary monthly and 3 special meetings).

The post of the Port Office, Secretary and Traffic Manager, Port Trust, was held by H. F. Heycock, Esq.

S. P. THOMPSON,
Chairman, Port Trust.

[Tatum Port Trust—Works expenditure—Audit report for 1929-30.]

With reference to section 85 of the Tatum Port Trust Act, 1924, I have the honour to forward herewith the audit report on the works expenditure of the Tatum Port Trust for the year 1929-30.

Extract

Audit Report on the works expenditure of the Tatum Harbour division for 1929-30.

Scope of the report.—This report deals with the audit of the expenditure of the Tatum Harbour works, which are partly financed from loan funds and each of the works financed from current revenues, as are executed by the Harbour Engineer-in-Chief's department.

2. Capital expenditure.—A lump sum of Rs. 25,000 was provided for capital works in the Budget Estimates for 1929-30. Out of this amount, a sum of Rs. 21,000 was sanctioned and accepted by Government in G.O. No. 38, Finance (Marine), dated 28th February 1930. The amount in excess of requirements was surrendered and a sum of Rs. 10,000 under surplus was provided. The expenditure against the first appropriation of Rs. 5,794 is shown in Schedule A appended. This schedule shows the actual expenditure on the deep-water scheme and the revised appropriation for each item of the scheme for which the original appropriation was provided in 1929-30. The total expenditure incurred on each work to end of 1929-30 against the amount of sanctioned estimate, is also shown therein. The estimate for works, including surplus during the year, fell short of the first appropriation by Rs. 245, the reasons and impact on individual works being tabular. In the case of surplus, the estimate was only Rs. 2,457 against the appropriation of Rs. 16,000 and the difference of Rs. 13,543 is mainly due to the adjustment by debit to miscellaneous advances of the fees paid to Mr. John Ellis, for professional services rendered in connection with the preparation of an outline specification for a bigger dredger. This was not anticipated and taken into account in the application for revised appropriations sanctioned in February 1930.

3. Revenue account.—Schedule B appended exhibits the details of revenue realized during the year and also the expenditure on engineering and maintenance works charged to the Revenue account with the original and revised appropriations therefor.

The revenue realized during the year was Rs. 1,316 as against Rs. 1,047 of the previous year. The decrease was under 'miscellaneous' to the receipts during the year for hire of tow and other from private persons and sub-contracts of surplus materials were less than those of the previous year.

The actual expenditure fell short of the estimated appropriation by Rs. 4,289. The works which largely contributed to the savings are detailed below with reasons therefor:—

Description of work	Amount	Reasons for the savings
Dividing the best approach channel to jetty by 'Mason.'	2,375	A surrender of Rs. 3,225 from the estimated appropriation under this item was proposed in March 1929. Out of this sum, only Rs. 1,375 was assigned. The surrender of the balance of Rs. 2,340 was not accepted as the proposals for the same did not reach Government before 1st March 1930—vide paragraph 2 of G.O. Memoirs No. 49, Finance (Marine), dated 21st March 1930.
Re-hoing the existing locking with necessary general and repairs.	1,328	The Port Trust's final decision as to the lay out of the locking was given only on 25th March 1930 and in consequence the estimated program could not be adhered to.

4. *Summary*.—A comparative statement of the outstanding balances is given below:—

Year.	Final debit balance.	Monthly current advances debit balance.	Provisional— Credit balance.
	Rs.	Rs.	Rs.
1928-29	74,975	17,177	409
1929-30	8,373	N.I.	316
1929-30	40,766	10,552	1,312

Stock.—The closing balance under stock and the suggested reserve limit for the same are added below:—

	Closing balance.	Suggested reserve limit.
	Rs.	Rs.
Coal	10,449	50,000
Other stores	35,317	40,000

The closing balance of stock under the different sub-heads were verified by Mr. J. Campbell, Officer in charge of the Taitavira Harbour division, on 18th and 21st March 1930 and 1st, 2nd and 10th April 1930. There was a small excess in coal over the book balance and it was adjusted in the accounts for April 1930. No variations were noticed in other stores.

Of the amount outstanding under 'Miscellaneous advances', Rs. 16,421 represents fees paid to Mr. John Ellis for professional services rendered in connection with the preparation of a notice of application for a Deepen Dredger for Taitavira. The Deputy Harbour Engineer-in-Chief has stated that Government have been addressed in the matter and orders of Government are awaited.

5. *Tools and plant*.—The articles borne on the tools and plant account were verified by Mr. John Campbell, Officer in charge, on 9th December 1929, 26th December 1929, 24th January 1930 and 26th January 1930. In the case of articles found missing, cost with savings was recovered from the parties responsible and adjusted in the accounts.

6. *Materials at site of works*.—These were also verified by Mr. John Campbell, Officer-in-charge, on 18th April 1930. No differences were noticed.

7. *Future programme of the Taitavira Harbour works*.—In paragraph 3 of the Audit Report for 1928-29, it was stated that the capital works at Taitavira were suspended pending final orders on the two alternative schemes, one at Nam Island and the other at Taitavira for which detailed estimates were ordered to be prepared in G.O. No. 888, Finance (Marine), dated 17th July 1928. The cost of the alternative estimates prepared ranged between Rs. 120 lakhs to 192½ lakhs. As the Taitavira Port Trust Board were unable to sanction any Harbour scheme in excess of Rs. 60 lakhs and the Local Government and the Government of India declined to make any grant for the purpose, the further construction of Harbour works was stopped.

The suggested saving if any consequent thereon has to be determined, after the disposal of the plant, machinery, etc., and after the adjustment in the accounts of the credits realised thereby. A separate report on this will be submitted to Government in due course.

General remarks.—The accounts of the Executive Engineer, Taitavira Harbour division, were reported in October 1929 and reported to be in good order.

Accountant-General.

M. JAYAKANNAN,
Assistant Accounts Officer.

Letter from A. R. NEERLAN, Esq., O.B.E., F.R.S., Esq., Examiner of Local Fund Accounts, to the Secretary to Government, Finance (Madras) Department, dated Madras, the 31st October 1929, No. L.F. 2572.

I have the honour to forward herewith a copy of the report on the audit of the accounts of the Tuticorin Port Trust for the year 1928-29.

REVENUE B.

Report on the audit of the accounts of the Tuticorin Port Trust and the Tuticorin Port Trust (Financially District) for the year 1928-29.

The final audit of the accounts for the period 1st April 1928 to 31st March 1929 was commenced on the 14th August 1929 and ended on the 16th September 1929.

2. During the period under audit the office of Chairman, Port Trust, was held by I. M. Fraser, Esq., I.C.S., from 1st April 1928 to 15th June 1928 and from 15th June 1928 to 12th July 1929, Mr. M. H. Jey, Esq., Mahabaleswaram, Vice-Chairman, in charge, from 15th to 18th June 1928 and by S. P. Thompson, Esq., I.C.S., from 12th July 1928 to 31st March 1929.

3. The closing balances, viz. (Port Fund) Rs. 1,26,000-0-11 and (Port Trust Fund), Rs. 1,00,000-0-0 were in agreement with those appearing in the Accountant-General's preliminary statement for 1928-29 after allowing for outstanding cheques, the Provident Fund, Government revenue on hand at the close of the year and advance of adjustments effected in the final accounts for March 1929.

4. The audit was conducted by District Inspector Mr. V. Nelson Apper in accordance with the rules on the subject. The general result was satisfactory.

5. The balance on the 31st March 1933 relating to the Special Resident Fund of the Tularia Port Trust was R. 905-11-2.

6. *Sanctioned outlay.*—In paragraph 7 of the audit report for 1929-30, the loss to the Port Trust in 1929-30 due to the incorrect interpretation of the grant-in-aid rules, was pointed out. The rules were correctly followed from the 29th October 1930—vide reply of the Port Trust to the audit report for 1930-31. In Government Memorandum No. 33413-5-Mac-A, dated 29th January 1932, the loss in 1929-30 was shown written off. Similar sanction is necessary in regard to the loss in 1929-30 upto 18th October 1932.

7. *Details of the maintenance of accounts.*—Maintenance works such as improvements to the harbours and repairs to and construction of structures are being carried out by the Trust departmentally under the supervision of the Secretary, while capital works have been entrusted to the Harbour Engineer paid for from the Tularia Port Fund. Though considerable amounts were spent on the purchase of materials and towards wages of labour employed in the maintenance works—vide Appendix I—accounts showing how the materials were utilized were not kept. Materials purchased such as gravel, sand, gravel, stone, etc., were shown as issued immediately on receipt, without recording details as to the particular amount of work for which they were issued. No statements of work done were also recorded. Part III of the master rolls are not filled in. It was not, therefore, possible to verify in audit whether the entries of work was worth the wages paid for and whether the materials purchased and used were necessary for the work turned out. Attention is invited to paragraphs 295, 335 and 335 of the Marine Public Works Account Code.

(3)

Extract of Resolution No. 217 of the meeting of the Tulivola Port Trust Board, held on Saturday the 6th November 1930.

Read report on the audit of the accounts of the Tulivola Port Trust and the Tulivola Port Trust Fund for the year ending 31st March 1930 and notes by the Chairman regarding the same.

(3)

Notes by the Chairman, Port Trust, on the audit report for 1929-30.

Paragraph 6.—Section of Government has been obtained, vide G.O. No. 425, Finance (Marine), dated 22nd September 1929.

Paragraph 7.—Under G.O. No. 388, Finance (Marine), dated 4th July 1927, the general maintenance and improvements to the harbours have been carried out by the Secretary and Traffic Manager. No additional staff was contemplated at the time for maintaining the various wharves required by the Public Works Account Code. The following procedure was adopted in an efficient and economic style were entertained when the maintenance work was commenced. This procedure has been adopted and carried on since the commencement of maintenance work.

The Traffic Manager personally maintains a memorandum book which contains all details of labour and materials purchased, as required by the Board.

Master rolls, stock and works registers are maintained. Tenders are called for, for the purchase of materials.

Half-yearly estimates are placed before the Board for approval and sanctioned and again at the completion of the half-year showing the expenditure and savings for working.

Consent has been purchased when loaded from stevedores to save cartage, etc., and when the price was favourable. After it was purchased it was entered in the stock book as received and issued. Actually it was stored in the closed godown and issued out as required under my personal supervision. I explained this to the auditor and told him that the work is patch work. The accounts were settled by the same District Inspector last year when the present procedure was introduced and an expenditure of Rs. 4,447 was incurred and no suggestions or remarks were made by him that the Public Works Account Code should be followed as the procedure was continued.

To comply with the Public Works Account Code regulations as suggested by the auditor it will be necessary to have a qualified estimator and accountant to carry out the work.

Paragraph 8.—In 1927 the Harbour Engineer, Technical Harbour Division, sent a detailed bill giving the price of coal stores, gravel, blue metal stones, etc., and was only given for coal stores.

Tenders for gravel and blue metal stones for the first half-year without valid were Rs. 12-5-8 and Rs. 15-11-8, respectively, against the tenders for the second half-year with valid of 10 per cent Rs. 15 and Rs. 21, respectively.

<i>Act of the Governor of Madras in Council.</i>			
1920 ..	X	The Madras Co-operative Societies Amendment Act, 1920.	The whole.

STATEMENT OF OBJECTS AND REASONS.

The progress and development of the co-operative movement since the existing Co-operative Societies Act, 1912 (Act II of 1912), was passed by the Governor-General of India in Council has made it necessary to revise the law under which co-operative societies in the Madras Presidency work. The Committee on Co-operation appointed by the Government of Madras in September 1927 who reviewed the progress made in the co-operative movement in the Presidency and reported into the present position and lines of development have observed defects in the existing law and recommended that they may be rectified by suitable legislation. The principal recommendations of the Committee which entail revision of the Act are Nos. 28, 140, 216 to 222, 226, 281 and 292 and 241 to 247.

2. The draft Bill gives effect to the suggestions of the Committee and opportunity is taken to embody the results of experience of the movement and rectify certain defects found in the existing Act. The noteworthy features of the Bill are shown below:—

(1) The members in credit societies are securing alienable properties. The pawnbrokers become defunct and other members are consequently allowed to become defuncts. It is proposed to empower the Registrar or the officer authorized by him to recover the overdue instalments of loans by distress and sale of movable properties. Provisions for prompt arbitration and conditional attachment of property involved are made.

(2) The co-operative societies in the Presidency have multiplied greatly, the number on 30th June 1928 was 14,554 and the State has been bearing the cost of arbitration and execution besides the cost of audit. Act II of 1912 gave powers to the Local Government to make rules to provide for charges if any to be made for audit, but not for costs for arbitration or execution. It is now

proposed to empower the Government to make rules for the levy of fees for the settlement of disputes and for the enforcement of the awards. There is provision for mitigation of the time for payment of loans in deserving cases and in other cases it is just that defaulters should pay for the cost of proceedings taken against them while many defaulters sue for whom there is no justification and in these cases the defendant party should be made to pay for settling the dispute.

(3) Act II of 1912 gave a prior claim to a registered society in respect of loans for the purchase of seed or manure, on the crops and in respect of loans for the purchase of cattle, fodder, implements and machinery and for materials for manufacture on these things and on articles manufactured and the tota of the lien on the agricultural produce was restricted to 15 months. It is proposed to convert the lien into a charge. Land Mortgage Banks are being registered under the Act and the success of the Banks mainly depends on the value of the mortgaged property. The debt is made a first charge also on the lands purchased or improved with the loan and on gardens and buildings purchased or built with the loan and upon the immovable property mortgaged to the society in respect of loans advanced for the clearance of great debts.

(4) There is much delay in winding up the affairs of liquidated societies. The liquidator is given more powers to wind up the affairs under the guidance of the Registrar and the process of liquidation is sought to be placed on a better footing.

(5) Act II of 1912 required the society and the officer-bearer to do many things, but no provision was made to take notice of the failure to comply with the provisions. The only offence for which punishment was provided is the use of the word "co-operative" by persons other than registered societies. A great lacuna is the result and it is therefore proposed to define the wilful failure, wilful neglect or refusal, wilful submission of a false return and wilful disobedience of summons, etc., an offence under the Act punishable under clause 54. The offences are made non-cognisable and triable only by a District Magistrate, while an adequate safeguard against irresponsible prosecutions is provided by requiring the permission of the Registrar before launching a prosecution. The content of the penal sections will stimulate business methods in the minds of co-operators and the provisions are based upon the English Industrial and Provident Societies Act.

3 In the note appended hereto the details of the Bill are discussed and dealt with, with reference to the respective clauses.
